## Summary

I am currently a programmer at Cielostar, Inc in Minneapolis, MN. My role could best be described as a Full Stack .NET Developer. I maintain and add features to VB.NET and C# MVC.NET web applications built on T-SQL databases. I regularly work with C#, VB.NET, Transact SQL and JavaScript, as well as their relative markup languages such as ASPX, CSHTML and HTML. I am extremely familiar with Visual Studio, SQL Server Management Studio and Team Foundation Server, in addition to a number of other programs. I have a natural aptitude for technology, as well as figuring out how things, both programmatic and physical, are made, repaired, and how they work, which makes me a great fit for many development teams.

## Experience

**Junior Software Developer**

CieloStar

Jun 2018 - Present (2 years 2 months +)

**Part Specialist**

Eden Prairie Nissan

Dec 2017 - Jun 2018 (7 months)
